FAVORABLE FEVER REPORT

Quarantines to Be a Memory by Time Roosevelt Comes.

NEW ORLEANS, Oct. 1.-Yellow fever

New Orleans, Oct. I.—Yellow fever report to 6 p. m. New cases, 23; total, 3923. Deaths, 3; total, 391 New foct, 4; cases under treatment, 227. Discharged, 2405.

The Sunday report would have been the lowest one on record except for the report of a nest of infection in another convent and asylum, totalling six cases among the girls in the Mount Carmel institute asylum in Piety street. There have been several cases in the Mount Carmel convent in St. Claude street and as these two institutions are closely alled, it is very likely that the infection was transmitted from one to the other. Another case is reported of the French asylum in St. Anne street.

The Algiers side turned up two cases. Among the deaths was Sister Mary Edith of the convent of Perpetual Ador-

The total number of cases under treatment in the city is only 27, which is the best evidence of the fight against the epidemic.

It is not at all unlikely that by the time the President strives quarantines in Louislann will be only a memory.

The following reports were received: Kenner, one new case, two deaths: Manderville, one new case; Tallulah and vicinity, thirteen new cases.

PLAIN WARNING TO MORMON PEOPLE

Joseph Smith, Leader of Reorganized Church, Speaks Out Boldly.

MORMONS ARE JUDGED BY SMITH, THE LAW-BREAKER

Patience of Government Will Not Last, and Penalty Will Fall.

In language clear and unmistakable in meaning, Joseph Smith, son of the founder of the Mormon church, last night warned the Mormons of Utah what they might expect if they remained under the

rule of law-breaking, law-defying leaders As on the evening a week previous, the chapel in which the head of the Reorganized church spoke was packed to its limit, more than 100 interested hearers standing in the aisles. Probably not onehalf of those present were members of the speaker's faith.

Punishment Will Come.

"Why not accept the inevitable?" said President Smith "Why not recognize now what you must recognize sooner or later-that the men at the head of this church in the valley must come within the pale of the law, that the disregard of the various acts of amnesty by Congress has all but exhausted the patience of the Government that the definee of the laws of the land will not longer be endured?

Masses Are Honest. "Why not be waried in time? There are thousands of good, homest, noble, virtuous men and women of this faith in Utah, God bless them! But I say to you that this church in Utah is seen through Joseph Fielding Smith and his associates; that his statements in Washington that the had lived, and expected to keep on living, in defiance of the laws of God and of the land, have been blazoned abroad over the Nation; have even gone across the seas Joseph F Smith has become a nubble character. The world is judging the church by his acts and the acts of his associates.

Congress Has Power. "Think what the continuous living in polygamy of these men means to you! Utah is not yet out from under the power of Congress. The same authority that extended to you pardon and amnesty, that legitimatized your children, can disfranchise and take away your rights of Statehood. We must have peace, a lasting peace in Utah, but the church leaders must so live and rule as not to array the Gentiles of this State and Nation against them.

What Must Be Done

What Must Be Done.

"Come back to an understanding of the truth Can you have that peace and prosperity by provoking the Gentlies to hostility? No. Can you have it by refusing to obey the laws? No. Can you have it by trusting for immunity from punishment in your law-breaking to the fact that men fear to prosecute? No. Until the leaders and all the people return to obedience of the revelations of God and the laws of the land, you will suffer more in the future, for there is this difference. Some of the suffering in the past came from undeserved prosecutions. Now, if this defiance of the laws continues the strong arm of the Government will be stretched out to punish, and punish justity. The United States has been patient with the people of Utah, but the complete of crime is sure to What Must Be Done. been patient with the people of Utah, but the punishment of crime is sure to

CHINESE LIVED IN MEXICO

Finds a Toltec Pyramid; Puzzles Antiquarians.

Antiquarians.

MEXICO CITY, Oct. 1.—Explorations made at an old Toltec pyramid on the Magneyitos baclenda, in the state of Pacibla, have disclosed the fact that the structure was built of clay bricks, which proves it to be far older than the Azter monarchy and possibly older even than the Toltec occupation of the country. Several elaborately carved figures were found, representing men in Chinese dress and with marked Chinese features. The figures probably represented warriors.

Antiquarians are much puzzled over the matter, for the evidence points to Chinese settlement in Mexico in the past ages.
